

Christmas

Rosa Clará Diagonal

Universe

CONCEPT

The intention of the window display is to give a subtle Christmas party mood, very festive but not too obvious. That is why it has been inspired by the magic, the brightness and beauty of **stars, comets, celestial bodies, and in few words the greatness of the universe**. To create this effect and achieve its realization, we will hang with nylon thread decorative Christmas balls in three different colours (black, silver and pearl) in diverse sizes. We will **avoid excess** and we will play with the height, position, depth and size of the balls.

This window display concept is to be added to the last one, the (September assemblage), as a complement to the black lace vinyls and laces.

Set-Up (assemblage) 1:

PLANIFICACION

Hang the balls. Tie the christmas balls switching colors white - black - silver working ALL space from top to bottom, placing them at different heights leaving space for the mannequin.

HANG THE BALLS

Tie the christmas balls switching colors white - black - silver working ALL space from top to bottom, placing them at different heights leaving space for the mannequin.

FINAL

Cut the remaining nylon thread and finally place the mannequin.

NOTE: If it is not possible to hang the balls from the ceiling (false ceiling, double ceiling, etc...) alternatively group the balls on the floor / counter.

Set-Up 2:

ROOF ANCHORING FOR THE BALLS WITH "EYEBOLT & PLUG"

(FOR BIG BALLS OF 40CM AND 50CM DIAMETER)

1) Make holes

2) Place plugs

3) Screw eyebolts
if needed use a hammer to reach top

4) Tie nylon threads
the strongly and leave the thread hanging to ground

ROOF ANCHORING WITH "HANGER NAIL"

(FOR BALLS OF 6,8,10,15,20,30CM DIAMETER)

1) Hook
placer

2) Position
hanger nail

3) Nail

4) Withdraw
placer

5) Tie thread
tie the nylon thread strongly
and leave it hanging to the floor

NOTE: alternatively you can use a stapler to place the balls. (the stapler is not included in the shipment)
